He is a Greek (2 years), a real man for all of us (2 years), a sportsman (1 year), a philosopher (3 months), a philosopher (1 year), a young student (1 year), a philosopher (1 year), a young student (1 year), a philosopher (1 year), a young student (1 year), a philosopher (1 year), a young student (1 year), a philosopher (1 year), a philosopher (1 year), a philosopher (2 years). He spends a lot of his free time on this site for entertainment and because he enjoys the experience of meeting new friends. Monday, March 15, 2012 The Pacific Tsunami Warning Center (PTWC) has issued a tsunami watch for the New Zealand South Island after recording a large earthquake. The agency said the quake, which it located about 45 kilometres north-west of Bluff, had a magnitude of 6.8. However, there is no threat to life or safety, it said. South Island Civil Defence says there is no tsunami threat for New Zealand. "A large earthquake has occurred in a remote location near Bluff, west of Christchurch. The magnitude is 6.8. There is no threat of tsunami. Local community are advised to stay calm and be vigilant," the agency said in a statement. Search form Daily Horoscope Daily Horosco
